

GDPR Record of Data Processors

Version: 1.2

Date: 2026-02-25

Status: IN FORCE

Scope: ImpactShop full platform (SHARITEAM.COM, app.sharity.hu)

Data Controller: Sharity Donation Organising Foundation + Sharity
Mobile Application Zrt.

1. Overview

This document contains the record of **data processors** engaged by the ImpactShop / Sharity platform in accordance with Article 30(2) of the GDPR.

The **data controller** in all cases is Sharity (Foundation and/or Zrt.), which determines the purposes and means of the processing of personal data.

Pseudo ID and personal data: The Platform uses a Pseudo ID (an online identifier generated in the browser) without registration. Depending on the circumstances, the Pseudo ID may qualify as personal data (GDPR online identifier; linkability with IP address, transaction, Stripe email, etc.) — see Terms & Conditions §5.2, §16.3. The Pseudo ID is specifically named in the Privacy Notice: storage (cookie/localStorage), legal basis, retention period, and deletion/linking rules.

This section is consistent with the Terms & Conditions §19.4(d), which also refers to NAIH.

7. Data Breach Incident Register

Pursuant to Article 33(5) of the GDPR, the data controller is obliged to maintain a record of data breaches.

7.1 Data to be recorded

The following must be recorded for every data breach incident:

Field	Description
Incident ID	Unique serial number (e.g. GDPR-INC-2026-001)
Date/time of detection	Timestamp when the incident was detected
Incident description	Nature of the incident, affected system(s), circumstances
Categories of data affected	What personal data is affected (Pseudo ID, email, transaction data, etc.)
Estimated number of data subjects affected	How many data subjects' personal data was compromised/affected
Affected data processor(s)	Stripe, Dognet, Cloudflare, Ezit, Google Cloud, Vonage, CJ, TradeTracker, Tradedoubler, Bitlabs, Pollfish, Cint, ayeT-Studios, CPX Research — whichever is involved in the incident
Severity	Low / Medium / High / Critical
Measures taken	Immediate and subsequent corrective actions
NAIH notification	Required (within 72 hours); if yes, date of notification
Notification of data subjects	Required; if yes, date and method of notification

Closure date	Closure of the incident handling
---------------------	----------------------------------

7.2 Procedure

1. **Detection:** automatic monitoring or manual report (office@sharity.hu).
2. **Assessment** (≤ 24 hours): DPO / Ops Squad determines severity and the scope of data subjects affected.
3. **NAIH notification** (≤ 72 hours): if the incident is likely to result in a risk to the rights of data subjects — GDPR Article 33.
4. **Notification of data subjects:** if the incident is likely to result in a high risk — GDPR Article 34.
5. **Corrective measures:** technical and organisational measures to prevent recurrence.
6. **Closure and documentation:** incident log closure, lessons learned recorded.

7.3 Retention

The Service Provider shall retain incident log entries for a minimum of 5 years.

8. Review

- **Frequency:** semi-annually, or upon engagement of a new data processor
 - **Responsible:** DPO / Ops Squad
 - **Trigger:** new partner integration, change in existing partner's terms, GDPR audit
-
